## **Amendments to the Specification:**

Please replace the paragraph beginning at page 5, line 16, with the following redlined paragraph:

Just as for actuation of the second side element 18, a respective suitable <u>rotary</u> <u>mechanism drive 13</u> can also be provided for actuation of the ball rotary joint 12. It will be appreciated that, in the case of the ball rotary joint 12, that can be a drive motor while for example electrical, hydraulic or pneumatic devices can be used for actuation of the second side element 18.
